

L80

the next generation of mobile concrete mixers

“Our first truck paid for itself within its first year of operation. Reducing downtime and saving on cost of disposal easily justified the acquisition.”
-Tom Baker,
Eastern Concrete

ALUMINIUM

EASE OF USE
Designed to reduce operator error.

CONTROL
Take total command of your concrete mix.

SUPPORT
World-class training and technical support.

AUTOMATION

REDUCE LABOR COSTS

MINIMIZE WASTE

INCREASE ROI

Capable of the same output as our steel mixers, the L80 is built to the same superior standards you’ve come to expect from ProAll. Comprised of high-strength aluminium and DTS fasteners, the L80 promises a more capable, more precise and more responsive mixing experience from the lineup of lighter concrete mixers.
