

PC85 COMMANDER

the next generation of precast mixers

The newest addition to the ProAll mixer lineup promises the same precision and control while offering a customized experience for precast applications.

The PC85 Commander is a stationary unit that comes skid-mounted to fit seamlessly into precast yards.

EASE OF USE

Designed to reduce operator error.

CONTROL

Take total command of your concrete mix.

SUPPORT

World-class training and technical support.

AUTOMATION

REDUCE LABOR COSTS

MINIMIZE WASTE

INCREASE ROI

Harness the reliability of a ProAll Mixer on your precast projects. ProAll mixers remove operator error by making automatic adjustments to the water, cement, and admix to ensure you meet the exact specifications of your selected mix design. Start and stop your pour with just the push of a button to take control of your concrete production.
